Welcome to the largest safety and health event in the Northwest. The 2015 GOSH Conference is an example of the long-standing partnership among the Department of Consumer and Business Services (DCBS), the American Society of Safety Engineers Columbia-Willamette chapter, insurers, employers, and labor groups to stay focused on improving safety and health in Oregon workplaces.

Oregon's on-the-job injury and illness rates have been declining since the 1990s – evidence of the commitment our businesses and workplace leaders make each day to ensure employees go home safely. I am proud of the fact that Oregon has some of the lowest workers' compensation premium rates in the country. This not only makes the state a positive place to do business, it encourages companies to invest their profits in product innovation, training, and other ideas to build on that success.

I hope you take advantage of the conference's networking opportunities, variety of workshops, and exhibit offerings (stop by the other DCBS booths for information on insurance or finance questions). By taking the time to attend the GOSH conference, you are pledging your continued focus on workplace safety and health. I want you to know that your efforts truly make a difference in keeping Oregon workers healthy and happy.

A handwritten signature in blue ink that reads 'Patrick M. Allen'.

Patrick M. Allen

Director, Department of Consumer and Business Services

Welcome from ASSE, Columbia-Willamette Chapter & Oregon OSHA

As president of the Columbia-Willamette Chapter of the American Society of Safety Engineers, and on behalf of our members, it is a pleasure to welcome you to the 2015 Oregon Governor's Occupational Safety and Health Conference. This is the Pacific Northwest's premier safety and health conference. Our chapter developed a vision statement that reads:

We will make the Columbia-Willamette Chapter's community a safer place to live and work by connecting members to share best practices and drive professional development.

This conference is a large part of how we strive to bring our vision statement to life. I can't think of a better forum for sharing best practices and driving professional development than this conference. Enjoy this opportunity to network, learn, and celebrate the importance of health and safety.

I would like to thank all of the volunteers from our chapter, including the student, Mount St. Helens, and Santiam sections for their efforts over the past 18 months. I would also like to thank many others involved in ensuring the success of this event. Without representatives from Oregon OSHA working diligently to provide coordination services, this conference would not be what it is today.

In addition to attending the keynote and sessions, I hope you will visit the exhibits, attend a social function, and expand your professional network. The more you engage in the conference, the more you will get out of it. The things you learn here today may prevent an injury or save a life tomorrow.

Bill Kness, PE, CSP
President, ASSE-CWC
Chair – 2015 GOSH Conference

Welcome to one of the premier workplace health and safety events in the country. Oregonians involved in the profession are rightly proud of the GOSH conference. Like so much of our success, it arises from a partnership between government and the private sector – in this case, Oregon OSHA and the Columbia-Willamette Chapter of the American Society of Safety Engineers.

GOSH offers the opportunity take both short and extended courses to build your workplace health and safety expertise. It offers a range of exhibitors to give you a better understanding of the resources available to you. And it offers an opportunity to celebrate our successes – at the same time that we acknowledge that there is work remaining to be done.

Ultimately, however, the test of GOSH's success is not a matter of the courses we offer or the speakers from whom we hear. GOSH is successful only when it results in changes in Oregon worksites. The subjects we address have true meaning only if we successfully translate them from lessons learned to actions taken.

And that is my continuing challenge to all who attend GOSH: Use your time wisely. Take the things you learn home with you. And make a difference. It matters. Because lives matter.

Michael Wood, CSP
Administrator, Oregon OSHA

Keynote

Tuesday, March 10, at 8:30 a.m.

Forensics — It's Elementary My Dear Watson

Occupational safety involves the identification and elimination of hazards in the work environment. Often, those hazards are unforeseeable until an accident occurs. To properly identify that hazard for future elimination, a thorough and proper forensic analysis must be performed. Procedures must be developed and followed to avoid the trap of apparent or obvious causation distractors. You analyze and solve problems or issues in your everyday life. Don't complicate it because it is an accident. Keep it simple; document the evidence; reverse the process; and then follow the falling dominoes. There is a little bit of Sherlock Holmes in all of us!

Jim D. Wiethorn, PE

*Chairman of the Board, Principal Engineer
Haag Engineering Co.
Sugar Land, Texas*

Jim D. Wiethorn has been involved in the design, construction, and evaluation of residential, commercial and industrial buildings since 1973. His experience has included evaluation and assessment of damage and failure of all construction types and systems, in particular, crane accidents. His construction background includes involvement as a third generation general contractor in the family business, as

well as Certificate of Competency as a General Contractor in Florida, by exam. Wiethorn has owned and operated cranes while working in the construction industry and has evaluated more than 700 crane and rigging failures throughout the United States and abroad, as well as more than 100 roof/building collapses. Currently, he serves on the National Commission for the Certification of Crane Operators (NCCCO), Tower Crane Committee, and Rigger Task Force Committee dealing with the testing and certification of crane operators and crane rigging. Additionally, Wiethorn is a main committee member of the American Society of Mechanical Engineers (ASME) B30 Committee Safety Standard for Cableways, Cranes, Derricks, Hoists, Hooks, Jacks, and Slings, and also serves on the B30.3, Tower Cranes and B30.29, Self-Erecting Tower Cranes sub-committees.

Wiethorn joined Haag Engineering Co. in 1987 and has served in construction litigation cases involving crane failures, building collapses, foundation failures, damage assessment of wind vs. wave, cost of repairs to structures, and construction defects, as well as product liability of various construction materials. In July 2014, Wiethorn published "Crane

Accidents, A Study of Causes and Trends to Create a Safer Work Environment, 1983-2013," which details findings of his crane accident evaluations spanning his 27-year career with Haag Engineering.

Columbia Forklift Challenge

Wednesday, March 11, 9 a.m.

Exhibit Hall D

**2015
GOSH
CONFERENCE**

**Awards Ceremony
& Luncheon**

Wednesday, March 11

Noon-1:30 p.m.

Portland Ballroom

HONORING GREAT ACHIEVEMENT

The honors presented this year are for exemplary safety performance by employers, employees, safety committees, associations, and individuals throughout the state. Recipients of these awards represent the diversity of industry in this state and recognize outstanding achievement in workplace safety.

2015 OREGON GOSH CONFERENCE AWARDS RECIPIENTS

ASSOCIATION

- **Central Oregon Safety & Health Association**
- **SafeBuild Alliance**

EMPLOYER SAFETY PROGRAM

- **City of Hillsboro**
- **Mt. Hood Meadows Ski Resort**
 - **Purdy Brush**
- **R & H Construction**

SAFETY COMMITTEE

- **Fortis Construction, Inc. Safety Committee**
- **Qorvo (formerly TriQuint) Safety Committee**

SAFETY AND HEALTH ADVOCATE (TEAM)

- **Huntair Target Zero Team**
- **TriMet Bus Operators Continuous Improvement Team (BOCIT)**

SAFETY AND HEALTH ADVOCATE (INDIVIDUAL)

- **Cathy Erickson**
- **Dan "DJ" Johnson**
- **Judy West**

SAFETY AND HEALTH PROFESSIONAL

- **Peter Kimbrel**
- **Corinna Kupelwieser**

The awards recognize significant contributions to occupational safety and health in Oregon by companies, safety committees, associations, and individuals.

Awards Master of Ceremonies

Stephanie Stricklen, KGW-TV

A Northwest native, Stephanie anchors KGW-TV's News at Sunrise and is a first-time master of ceremonies for the 2015 GOSH Awards. Her news career has allowed her to embrace adventures such as interviewing the Dalai Lama, rappelling down Portland's Big Pink (U.S. Bancorp Tower), and flying with the U.S. Navy Blue Angels. She also covers the Olympics.

Stephanie enjoys the outdoors, especially camping and hiking, and loves to travel, both domestically and abroad. She most enjoys spending time with her husband John and their daughter.

General Information Desk

If you have questions about the conference, come to the Conference General Information Desk. We can help you with general information about the conference, including ADA accommodations, parking, continuing-education units, and exhibit hall passes for non-registered attendees. To leave a message for someone at the Oregon Convention Center, call 503-235-7575.

Where's my class?

When you receive your conference program, be sure to get the session locator. A map of the convention center is located at the end of this program.

Each classroom will have a daily schedule posted by the entrance.

If you have trouble finding your class or other conference activities, ask one of the volunteers at the conference desks in Pre-Function D/E.

On-site registration and purchasing meals

If tickets remain, you can purchase meal tickets for the Awards Luncheon (\$15) at the conference. All other lunches are included with your registration fee for the day. You can also register for a Thursday workshop and Tuesday and Wednesday sessions on site.

Credit cards, checks, cash, and purchase orders are accepted on site.

Scheduling changes and name badge corrections

If you have questions about registration, have a mistake on your name badge, or are substituting for someone who couldn't attend, come to the on-site registration desk.

Accreditation

General Information / ASSE

Continuing Education Units (CEUs) are available for those attending the 2015 GOSH Conference. If you utilize CEUs as Continuance of Certification (COC) or Certification Maintenance (CM) points to maintain your CSP, CHST, OHST/CLCS, or STS professional certifications, please drop by the American Society of Safety Engineers (ASSE) Columbia-Willamette Chapter booth in Pre-Function D/E to register for your CEUs.

CEUs available for attending the 2015 GOSH Conference are as follows:

Monday, March 9, 2015	.6 CEU
Tuesday, March 10, 2015	.6 CEU
Wednesday, March 11, 2015	.6 CEU
Thursday, March 12, 2015	.6 CEU
Total all four program days	2.4 CEU

ABIH Certification Maintenance

ABIH has discontinued its CM point review service for these types of events. Instead, ABIH's Diplomates now determine their own CM credit based on their actual participation (contact hours) in the technical portions of the event. Go to the ABIH website for more information.

Attendance Verification

You will find an Attendance Verification Sheet in your conference packet. Feel free to use this sheet to track your attendance at sessions and workshops. You may find it helpful, or necessary, to submit this form with speaker signatures, program descriptions, and speaker information directly to your accrediting organization, employer, or others as proof of your attendance at the conference.

Evaluations

A speaker evaluation form is provided for each session of the conference. Please leave your completed forms with the program facilitator before leaving the session. We also ask that you complete the **conference evaluation** form in your packet. Bring your completed form and name badge to registration for a chance to win an iPad! Evaluation drop boxes are also located throughout the conference center.

Co-sponsorship of this conference by Oregon OSHA and the Columbia-Willamette Chapter of American Society of Safety Engineers does not necessarily constitute endorsement or approval of the content of programs. Employers and employees should review applicable rules and regulations to ensure that the information they have received is appropriate to their specific worksite and work situation. ASSE, Columbia-Willamette Chapter is financially responsible for conference arrangements and commitments.

Exhibit Hall

More than 120 companies display the latest in occupational safety and health products, equipment, and services on Tuesday and Wednesday. Company representatives are available to answer your questions and take your orders.

Exhibit Hall Information Desk

Wondering where an exhibitor is located? Ask the staff person at the Exhibit Hall Information Desk, located inside Exhibit Hall D. You can also refer to the exhibitor index in this program and in the Portland Business Journal publication. The conference mobile app is also a wealth of information.

Exhibit Hall hours

Tuesday, March 10 — 8 a.m.-3:30 p.m.

Wednesday, March 11 — 8 a.m.-3 p.m.

Oregon OSHA booth

Visit the Oregon OSHA booth in Pre-Function D/E for information, resources, Oregon OSHA code and publication order forms, and answers to your safety and health questions. Oregon OSHA has programs in enforcement, consultation, education, technical resources, and grants. Also, visit www.orosha.org.

ASSE booth

Visit the American Society of Safety Engineers booth in Pre-Function D/E for information about membership. ASSE provides a circle of contacts for professional networking and up-to-date information about occupational safety and health and low-cost education opportunities. For more information about joining the ASSE chapter in your area, visit www.assecwc.org.

WiFi

WiFi is available in the lobby and meeting rooms. More information is available when you check in.

Mobile Event App

- **Experience GOSH** through the mobile event app. More information is available when you check in.

Workplace Safety Series

Emergency action plan

The Oregon Convention Center is equipped with an automatic fire alarm system. If the fire alarm activates, you'll hear instructions for appropriate action. If evacuation is necessary, leave the area in a calm, orderly manner, following the lighted exit signs. Otherwise, listen for further instructions or an "all clear" message.

If you become aware of an emergency, please pick up a house phone and dial "0."

- Give the location of the emergency
- Type of assistance needed
- Inform if someone has already called 911

First aid and AEDs

The Med Tech (paramedic) station is located in a hallway near Pre-Function E (registration area). Look for the first-aid sign across from the E Meeting Rooms. The station is open daily during the same hours as the conference.

NOTE: OCC has three AED locations: by Portland Roasting, across from the B Meeting Room; outside Portland Ballroom 251; and by the stairs near Oregon Ballroom 201.

Oregon Convention Center Smoking Policy

The OCC is a non-smoking facility. Smoking is permitted only outside of the facility a minimum of 25 feet from public entries in the designated areas. All exhibitors need to exit the front of the facility to smoke.

Portland information

Portland is an exciting, culturally diverse city with museums, parks, shopping, college and professional athletics, and fine dining. Stop by the Oregon Convention Center desk located in the Martin Luther King Lobby or call the Portland Oregon Visitors Association at **503-275-9450** for more information.

Visit www.travelportland.com.

Social Media

- **Stay connected!** Receive conference updates on the GOSH Facebook page:

Special Events and Programs

SafeBuild Alliance Quarterly Meeting

Monday, March 9, 4-6:30 p.m., C123-124

Convergence of LEAN and Safety

Organizations today that are committed to self-improvement are exploring how to integrate safety and the principles of LEAN. Although both of these approaches to project delivery have different historical roots they have much in common. In practice they both depend upon the insights and experience of the front-line worker and their immediate supervision. Other commonalities include a strong commitment to forward thinking and inclusive planning that considers both short-term and long-term objectives.

Please join the Cascadia Chapter of the Lean Construction Institute and SafeBuild Alliance at the GOSH Conference as we explore with a panel of experienced professionals from different sectors of the industry the lessons from the innovative projects that have been applying these values and principles to project delivery. These include:

- Lourdes Javillionair, Lean Practitioner, Intel Corporation
- Elaine Dabrowski, Architect, Sr Project Mgr, OHSU
- John Mess, Zimmer Gunsul Frasca Architects
- Summer Gorder, President, EcoReal
- Bill Drinkward, Project Manager, Hoffman Construction
- Steve Collier, NW Division Mgr., Rosendin Electric

There will be the traditional networking reception before and after the meeting.

There is no cost to attend this meeting.

Silent Auction in the Exhibit Hall

To benefit future safety professionals in their studies, through the ASSE, Columbia-Willamette Chapter, Development Committee. (Bidding ends at 1:45 p.m. on Wednesday, March 11.)

The Columbia-Willamette Chapter of ASSE supports Oregon and Washington universities and community colleges by offering scholarships to students in safety and health related degrees. The money raised from this silent auction will encourage new students into the programs as well as make it possible for some students to continue their studies.

Stop by the Silent Auction area in the exhibit hall and place your bid!

WISE (Women in Safety Engineering) Networking Event

A WISE Legacy

Tuesday, March 10, 5:15 p.m., F150-151

Meet with fellow safety professionals and discuss opportunities for networking, mentorship, and valuable resources designed to assist female safety professionals in their safety and health careers. We will be recognizing a few talented safety professionals as well as hosting a talk, "WISE as Legacy Leaders" presented by Deb Fell-Carlson, an occupational health nurse fellow with many years of experience in safety and health. Light refreshments will be provided.

The Future of Occupational Health

Wednesday, March 11, 7-8:30 a.m., F149

The Department of Environmental and Occupational Health Sciences at the University of Washington (UW DEOHS) has embarked on a project to explore what the future of occupational health and safety might look like from research, policy, and practice perspectives. This effort has included a monthly speaker series and includes a two-day symposium and workshops in June 2015. The department is also soliciting input, ideas, projections, and dreams about the future from regional partners and practitioners.

Please join us and help think about how to plan for and engage the next generation of occupational health and safety practitioners, policy makers, and researchers.

Light refreshments served, discussion to follow.

No registration required for this event.

Sponsored by the Northwest Center for Occupational Health and Safety

Student Day

O[yes], the Oregon Young Employee Safety Coalition, is excited to once again sponsor Student Day at the 2015 GOSH Conference! High school students from across the state attend Student Day and learn how to stay safe on the job, hear inspirational stories related to workplace safety, and visit the extensive GOSH exhibit hall. You can learn more about O[yes] at www.youngemployeesafety.org.

Special thanks to the following sponsors who are making this event possible:

- ASSE (Columbia-Willamette Chapter, Santiam Section, Mt. St. Helens Section, Cascade Chapter, and Southern Oregon Chapter)
- Hoffman Construction
- Construction Safety Summit
- Oregon Institute of Occupational Health Sciences
- COSHA
- Oregon Health Authority
- SAIF Corporation
- SafeBuild Alliance
- Oregon OSHA

AGRICULTURE/PESTICIDES

- 207:** Exposures to Pesticides

- 318:** Prevent Employment Claims by Focusing on the Employee Lifecycle
- 337:** Five Star Safety – An Innovative Way to Reduce Risk
- 367:** R3-Residual Risk Reduction: A Systematic Approach for Reducing Risk

SAFETY COMMITTEE

- 111:** Welcome to the Safety Committee!
- 370:** Safety Committee Problem Solving
- 413:** Proven Strategies for Improving Safety Committee Effectiveness

SAFETY AND HEALTH MANAGEMENT

- 112:** The Four Cornerstones and Twelve Attributes of Safety Excellence
- 155:** System-Based Safety and System Reliability
- 156:** Frontline Optimal Safety Performance
- 204:** Steps and Expectations for Achieving VPP
- 252:** The Coming Revolution in Safety Behavior
- 254:** Towards Global-Class Safety and Culture
- 274:** iPads and Other Tablets: Has Their Time Come in EHS?
- 290:** Inspections vs. Evaluations
- 291:** SHARP Success Stories
- 306:** Developing Safety Leaders in the Workplace
- 324:** Building Strong Teams Through Recognition
- 325:** Leading with Both Brains for Safety's Sake
- 355:** Personal Risk Management – Techniques for Injury Avoidance
- 360:** By Our Powers Combined – Effective Integration of Environmental & Safety Management Systems
- 412:** Safeway Culture of Safety
- 417:** An Overview of the Safety and Health Improvement Program
- 459:** Research and Resources on Traumatic Occupational Fatalities

SCHOOLS

- 214:** General Hazards in Schools
- 265:** Solutions for General Hazards in Schools: Panel Discussion
- 285:** Crime Prevention through Environmental Design (CPTED)

UTILITIES

- 201:** OSHA 1910.269 and Subpart V Changes
- 206:** The Road To "World Class" Traffic Management
- 252:** The Coming Revolution in Safety Behavior
- 276:** Burn Injuries: Care and Management
- 317:** The Art of Risk Communication
- 325:** Leading with Both Brains for Safety's Sake
- 409:** Building a Better Program – The Partnering of Fleet and Safety
- 414:** ATV Safety: Practical Solutions
- 417:** An Overview of the Safety and Health Improvement Program
- 454:** Development, Delivery and Evaluation of a Comprehensive Fitness for Duty Program in a Large Multi-site Electric Utility

WELLNESS

- 108:** Designing for Synergy: Building a Wellness Program with Safety in Mind
- 219:** Bridge the Gap: Workers' Compensation, Health Care, and Human Capital Risk Management
- 266:** Nutrition and Wellness in the Workplace
- 303:** Stressed? How One's Health is Impacted - Views from a Physician
- 326:** Effective Team-Based Approaches to Total Worker Health
- 365:** The Challenge of Containing the Risks and Costs of the Seated Worker
- 366:** Know Your Health Numbers
- 405:** Healthiest Employer Best Practices Panel: Tips, Challenges, and Lessons Learned
- 419:** Total Worker Health: Tips and Strategies for Safety and Health Professionals
- 455:** Integrative Wellness – The Highway to Success

WORKERS' COMPENSATION

- 209:** Workers' Compensation 101: From Injury to Closure
- 219:** Bridge the Gap: Workers' Compensation, Health Care, and Human Capital Risk Management
- 257:** Recordable, Reportable, or Both?
- 277:** The Bottom Line: How to Define the True Cost of a Claim
- 279:** Occupational Disease Claims: Views from Claims and Industrial Hygiene

WORKPLACE VIOLENCE PREVENTION

- 286:** Protect Your Front Line
- 302:** Workplace Violence: Clackamas Town Center Reflection
- 352:** Workplace Violence and Street Smarts
- 406:** Post Traumatic Stress Disorder (PTSD) – In and Out of the Workplace

See mobile event app or ask for a registration program at general information for session descriptions.

Conference Schedule-at-a-Glance

Monday, March 9

Registration opens (Pre-Function D/E)	8 a.m.
Pre-Conference Workshops	.8:30 a.m.-4 p.m.
Lunch (Portland Ballroom 255)	Noon-1 p.m.

Tuesday, March 10

Registration opens (Pre-Function D/E)	7 a.m.
On-site registration opens (Pre-Function D/E)	7 a.m.
Exhibit Hall open (Exhibit Hall C)	.8 a.m.-3:30 p.m.
Opening and Keynote (Portland Ballroom 251)	8:30-9:45 a.m.
Designated Exhibit Hall time	9:45-10:30 a.m.
Sessions	10:30 a.m.-noon
Lunch (Exhibit Hall D) and Exhibits	Noon-1:30 p.m.
Sessions	1:30-3 p.m.
Break and Exhibits	3-3:30 p.m.
Sessions	3:30-5 p.m.
Exhibit Hall closes for the day	3:30 p.m.

Wednesday, March 11

Registration opens (Pre-Function D/E)	7 a.m.
On-site registration opens (Pre-Function D/E)	7 a.m.
Exhibit Hall open (Exhibit Hall C)	.8 a.m.-3 p.m.
Sessions	8:30-10 a.m.
Columbia Forklift Challenge (Exhibit Hall D)	9 a.m.
Break and Exhibits	10-10:30 a.m.
Sessions	10:30 a.m.-noon
Awards Ceremony and Lunch (Portland Ballroom 251)	Noon-1:30 p.m.
Designated Exhibit Hall time (Exhibit Hall C)	1:30-2:30 p.m.
Silent Auction bidding ends	1:45 p.m.
Sessions	2:30-5 p.m.
Exhibit Hall closes for the conference	3 p.m.

Thursday, March 12

Registration opens (Pre-Function D/E)	8 a.m.
Sessions and Post-Conference Workshops	.8:30 a.m.-4 p.m.
Lunch (Portland Ballroom 251)	Noon-1 p.m.

MONDAY, MARCH 9

8:30 a.m.-noon

- 101:** OSHA 10 hour – General Industry
(8:30 a.m.-4 p.m.; continued on Thursday)
- 102:** OSHA 10 hour – Construction (8:30 a.m.-4 p.m.; continued on Thursday)
- 103:** Creating a Culture of Health and Wellness in the Workplace
- 104:** Welding: Exposures and Controls (8:30 a.m.-4 p.m.)
- 105:** Reducing Drama: Tools for Conscious Leadership
- 106:** You've Identified the Hazards, Now What Do You Do?
- 107:** Annual HAZWOPER and Emergency Response Training Refresher
(8:30 a.m.-4 p.m.)
- 108:** Designing for Synergy: Building a Wellness Program with Safety in Mind
- 109:** Ergonomic Job Analysis Tools (8:30 a.m.-4 p.m.)
- 110:** Accident Investigation Workshop (8:30 a.m.-4 p.m.)
- 111:** Welcome to the Safety Committee (8:30 a.m.-4 p.m.)
- 112:** The Four Cornerstones and Twelve Attributes of Safety Excellence

1-4 p.m.

- Continued from 8:30 a.m. – 101, 102, 104, 107, 109, 110, and 111**
- 151:** Innovations in Safety Equipment
 - 152:** Making the Connection: Communication Skills for Improving Safety Performance
 - 153:** Managing the Complexities of Injured Workers Living in Large Bodies
 - 154:** Professional Resilience
 - 155:** System-Based Safety and System Reliability
 - 156:** Frontline Optimal Safety Performance: The Critical Role of the First-line Supervisor

TUESDAY, MARCH 10

8:30-9:45 a.m.

- 200: Opening and Keynote:** Forensics – It's Elementary My Dear Watson

10:30 a.m.-noon

- 201:** OSHA 1910.269 and Subpart V Changes
- 202:** The Safety Professional's Role in Enterprise Risk Management
- 203:** Preventing Burnout
- 204:** Steps and Expectations for Achieving VPP
- 205:** What to Expect from an Oregon OSHA Inspection and Current Emphasis Programs
- 206:** The Road to "World Class" Traffic Management
- 207:** Exposure to Pesticides
- 208:** High-Performance CPR and AED
- 209:** Workers' Compensation 101: From Injury to Closure
- 210:** What You "Know" About Back Pain May Not be True
- 211:** Oregon Air Permitting 101
- 212:** Chemical Approval and Management
- 213:** GHS: Two Deadlines Hit in 2015 - Are You Ready?
- 214:** General Hazards in Schools
- 215:** Behavior Change Tactics You Can Apply Today: Findings and Tools from the COMPASS Total Worker Health Program for Home Care Workers
- 216:** Ergonomics as a Safety Management Tool in Construction: Providing Real and Measureable Risk Reduction and Cost Efficiency
- 217:** The Oregon Fire Code
- 218:** Vehicle Inspections and Beyond
- 219:** Bridge the Gap: Workers' Compensation, Health Care, and Human Capital Risk Management

1:30-3 p.m.

- 251:** Infections of Public Health Significance: Emergencies and Urgencies
- 252:** The Coming Revolution in Safety Behavior
- 253:** Building Safety into Design: Using Life Cycle Safety Design Reviews
- 254:** Towards Global-Class Safety and Culture
- 255:** OSHA's Whistleblowing Regulation – History and Case Studies
- 256:** Cool Tools for the Safety Professional: Making Work Easier and Training Effective and FUN!
- 257:** Recordable, Reportable, or Both?
- 258:** Industrial Hygiene in Construction – Worst Offenders and Tips
- 259:** Pesticide Registration and Changes to the Worker Protection Standard
- 260:** You've Survived the Zombie Apocalypse. Now What?
- 261:** Integrating Lean and Ergo Principles for Improved Safety and Productivity
- 262:** Avoid the Top Ten Hazardous Waste Violations in Oregon While Moving Your Process Forward Sustainably
- 263:** Making Compliance Stick – Getting EH&S Buy-in From Your Lab Researchers
- 264:** What You Need to Know About Controlling Welding Fume Exposures
- 265:** Solutions for General Hazards in Schools: Panel Discussion
- 266:** Nutrition and Wellness in the Workplace
- 267:** Five W's of Pre-Task Planning
- 268:** Creating a Safer Pick and Path: Steps to Reducing Risks and Maximizing Safety
- 269:** Reducing Your Total Cost of Risk
- 270:** Innovation
- 271:** Advanced Fall Protection (1:30-5 p.m.)

3:30-5 p.m.

- Continued from 1:30 p.m. – 271**
- 272:** The Buried Truth Uncovered (session repeated on Wednesday, 10:30 a.m.)
 - 273:** Crane Accidents: A Study of Causes and Trends to Create a Safer Work Environment, 1983-2013.
 - 274:** iPads and Other Tablets: Has Their Time Come in EHS?
 - 275:** Regulatory Update
 - 276:** Burn Injuries: Care and Management
 - 277:** The Bottom Line: How to Define the True Cost of a Claim
 - 278:** Rural Schools and Potential Pesticide Exposure, and Adverse Pesticide Exposure Case Studies
 - 279:** Occupational Disease Claims: Views from Claims and Industrial Hygiene
 - 280:** Silica – What's the Fuss about that Dust?
 - 281:** Prevention of Common Occupational Injuries in Health Care
 - 282:** Industrial Wastewater Pretreatment and Stormwater Regulations
 - 283:** Control and Hazardous Energies and Confined Space Entry in the High Tech Industry
 - 284:** Living on the Ring of Fire: Earthquake and Tsunami Hazards in the Pacific Northwest
 - 285:** Crime Prevention Through Environmental Design (CPTED)
 - 286:** Protect Your Front Line
 - 287:** Ergonomics of the Aging Workforce: It's Not as Bad as You Think
 - 288:** The Cyberthreat Landscape
 - 289:** Running an Effective Meeting
 - 290:** Inspections vs. Evaluations
 - 291:** SHARP Success Stories

Exhibit Hall Hours

Tuesday – 8 a.m.-3:30 p.m.

Wednesday – 8 a.m.-3 p.m.

Program-at-a-Glance

WEDNESDAY, MARCH 11

8:30-10 a.m.

- 301:** Communicating Safety in Any Language
- 302:** Workplace Violence: Clackamas Town Center Reflection (8:30 a.m.-noon)
- 303:** Stressed? How One's Health is Impacted – Views From a Physician
- 304:** Managing and Motivating Different Generations in Today's Workforce
- 305:** JHAs
- 306:** Developing Safety Leaders in the Workplace
- 307:** Traffic Control – Rules of the Road
- 308:** Brewery Hazards and Methods for Reducing Risk
- 309:** Rethink Disaster Response
- 310:** Beyond Stretching: Functional Fitness as Part of Total Worker Health
- 311:** Just Do It: Survive (and Thrive) During the Environmental and Safety Inspection
- 312:** Integrating Indoor Air Quality into Routine Building Management
- 313:** Strategies for Noise Control in Metal Fabrication
- 314:** Scaffold User Awareness
- 315:** Uncovering Hidden Hazards in the Healthcare Environment
- 316:** Prevention Through Ergonomic Design
- 317:** The Art of Risk Communication
- 318:** Prevent Employment Claims by Focusing on the Employee Lifecycle
- 319:** Top 10 Supervisor Mistakes
- 320:** Respirator Fit Testing: Fit Testing Requirements and Qualitative Fit Test Protocols

10:30 a.m.-noon

Continued from 8:30 a.m. – 302

- 321:** Technology and Safety: From the Field to the Office
- 322:** The Buried Truth Uncovered (*repeat session from Tuesday, 3:30 p.m.*)
- 323:** Adapting Social Marketing Methods to Promote Organizational Safety
- 324:** Building Strong Teams Through Recognition
- 325:** Leading with Both Brains for Safety's Sake
- 326:** Effective Team-Based Approaches to Total Worker Health
- 327:** Basic Fall Protection
- 328:** Hearing Conservation: Program Best Practices and Determining Work-Relatedness
- 329:** Responding to Natural Gas Emergencies
- 330:** Advances in Office Ergonomics
- 331:** Going the Distance: Know Your Environmental Regulations
- 332:** NFPA 70 E – Standard for Electrical Safety in the Workplace
- 333:** Young Workers, Old School Training: When Great Minds Don't Think Alike
- 334:** Managing Compassion Fatigue in the Caregiver Population
- 335:** Medical/Recreational Marijuana - A "Budding" Workplace Safety Issue
- 336:** Five Current Approaches for Managing Musculoskeletal Disorders at Work
- 337:** Five Star Safety – An Innovative Way to Reduce Risk
- 338:** Supervising Within the Law
- 339:** Respirator Fit Testing: Quantitative Fit Testing

Noon-1:30 p.m.

Awards Ceremony and Luncheon (Tickets are \$15 per person)

1:30-2:30 p.m.

Designated Exhibit Time

2:30-5 p.m.

- 351:** Working in Remote Places
- 352:** Workplace Violence and Street Smarts
- 353:** Employment Law Update
- 354:** Marketing Your Organization to Advance Safety Culture
- 355:** Personal Risk Management – Techniques for Injury Avoidance

- 356:** Driven to Distractions
- 357:** Process Safety vs Occupational Safety: Can You Have One Without the Other?
- 358:** Return-to-Work Success Stories
- 359:** Watching You! Tips and Tricks for Presenters
- 360:** By Our Powers Combined – Effective Integration of Environmental and Safety Management Systems
- 361:** Bringing Order to Chaos: Incident Command and Emergency Response Teams in the Workplace
- 362:** Rigging for the Construction Industry – P30 Lift Planning
- 363:** Confined Spaces: Regulatory Update and Classifying a Confined Space
- 364:** Threats and Assaults Against Health Care Workers: Not "Just Part of the Job"
- 365:** The Challenge of Containing the Risks and Costs of the Seated Worker
- 366:** Know Your Health Numbers
- 367:** R3 – Residual Risk Reduction: A Systematic Approach for Reducing Risk
- 368:** Systems-Based Accident Investigation
- 369:** Machine Guarding – Amputations & OSHA's Special Emphasis Program
- 370:** Safety Committee Problem Solving
- 371:** Combustible Dust 101

THURSDAY, MARCH 12

8:30-10 a.m.

Continued from Monday – 101 and 102

- 401:** Participatory Ergonomics: Key Components of a Successful Program (8:30 a.m.-noon)
- 402:** A Practical Overview of Industrial Hygiene for the Non-IH (8:30 a.m.-4 p.m.)
- 403:** Power Communication
- 404:** Flooding and Associated Hazards in the Pacific Northwest
- 405:** Healthiest Employer Best Practices Panel: Tips, Challenges, and Lessons Learned
- 406:** Post Traumatic Stress Disorder (PTSD) (8:30 a.m.-noon)
- 407:** Focus on the Future: New Ideas in Hospital Infection Control
- 408:** Noise Control Demystified (8:30 a.m.-noon)
- 409:** Building a Better Program – The Partnering of Fleet and Safety
- 410:** Safe Forklift Operations – A User Guide (8:30 a.m.-4 p.m.)
- 411:** Innovative Thinking: General Contractors Safety Programs Beyond the Basics
- 412:** Safeway Culture of Safety
- 413:** Proven Strategies for Improving Safety Committee Effectiveness (8:30 a.m.-4 p.m.)

10:30 a.m.-noon

Continued from 8:30 a.m. – 101, 102, 401, 402, 406, 408, 410, and 413

- 414:** ATV Safety: Practical Solutions
- 415:** Elements of Building a Volunteer Emergency Responder Program
- 416:** Hazardous Materials in Healthcare
- 417:** An Overview of the Safety and Health Improvement Program
- 418:** Construction Safety Innovations Best Practices
- 419:** Total Worker Health: Tips and Strategies for Safety and Health Professionals
- 420:** Lockout/Tagout: Controlling Hazardous Energy

1-4 p.m.

Continued from 10:30 a.m. – 101, 102, 402, 410, and 413

- 452:** Speaking Up for Safety
- 453:** HAZMAT Victim Decontamination
- 454:** Development, Delivery and Evaluation of a Comprehensive Fitness for Duty Program in a Large Multi-site Electric Utility
- 455:** Integrative Wellness – The Highway to Success
- 456:** Hot Topics on Particulates
- 457:** Ergonomics Principles for Effective Safety Committees
- 458:** Confined Space and Industrial Rescue: How Much and How?
- 459:** Research and Resources on Traumatic Occupational Incidents

Cody Adams

Oregon Safety Director
Cochran Electric
cadams@cochraninc.com

Topic: OSHA 10 hour (#101/102)

Gordon Baldwin, CUSA

Senior Safety Management Consultant
SAIF Corporation, Salem, Oregon
503-373-8014; gorbald@saif.com
